ABOUT ME

Third year Computer Science undergraduate specializing in Data Science with strong interest in Software Development, Data Analysis and Data Engineering. Proficient in Python, SQL, React.js, Node.js, FastAPI, and C#. Experienced in building full-stack applications, managing databases, and analyzing datasets to generate insights for decision-making. Skilled in data processing, system development, and creating data driven solutions through academic and personal projects. Strong problem solving and analytical skills with a passion for learning new technologies and applying them in software and data focused roles.

EDUCATION

University of Kelaniya

B.Sc. Computer Science (Hons) Specialization in Data Science

2023 - Present

Sri Lanka

G/Gamini National College Bentota

Physical Science Stream (A/L): ABC

2021(2022)

CERTIFICATIONS

Python for Data Science, AI & Development - Coursera / IBM

April 2026

What is Data Science? - Coursera / IBM

April 2026

TECHNICAL SKILLS

Frontend	: HTML, CSS, JavaScript, React JS
Backend	: Node.js, Python, C#, FastAPI, Express.js
Databases	: MongoDB, PostgreSQL, My SQL, SQL Server
Language	: Python, SQL, C#, C, Java, Javascript
Visualization	: Matplotlib, Pandas, Numpy Streamlit, Power BI
Tools	: Git, GitHub, VS Code, IntelliJ IDEA, Postman, Visual Studio

PROJECTS

GarageFinder – Vehicle Service Platform (Web Application)

2026

- Developed a vehicle service platform to help users find nearby garages and vehicle services.
- Built responsive frontend interfaces using React.js and implemented role-based garage dashboards.
- Added garage registration, login authentication, and search filtering features.

Tech Stack: React.js, JavaScript, Node.js, Express.js, MongoDB

Github: <https://github.com/janeeshaShehani/GarageFinder.git>

Customer Shopping Behavior Analytics Dashboard

2026

- Analyzed customer shopping data using Python, SQL, and PostgreSQL.
- Performed data cleaning, preprocessing, and feature engineering with Pandas.
- Developed an interactive Power BI dashboard to visualize customer behavior and spending trends.

Tech Stack: Python, Pandas, PostgreSQL, SQL, Power BI, Jupyter Notebook

GitHub: https://github.com/janeeshaShehani/customer_shopping_behavior_power_BI_project.git

AI-Powered Intelligent Tutoring Solution - Group Project

2025

- Developed a smart e-learning platform to improve student engagement using real-time attention tracking.
- Implemented eye detection using OpenCV and MediaPipe, combined with a trained CNN model to classify student alertness.
- Designed an interactive quiz system and integrated Zoom API for automated session scheduling.
- Used React (frontend), FastAPI (backend), and MySQL for a robust full-stack implementation.

Tech Stack: React, FastAPI, MySQL, Python, TensorFlow/Keras

GitHub: <https://github.com/AnuradhaRashmika/KITS-Intelligent-Tutoring-System>

Employee Management System (Desktop Application) - Group Project

2025

- Developed a desktop HR solution using C# and .NET to automate employee data handling and payroll operations.
- Engineered a full CRUD system with Windows Forms and integrated SQL Server via ADO.NET for secure data storage.
- Applied Object-Oriented Programming (OOP) principles to create a scalable and maintainable codebase.

Tech Stack: C#, .NET Windows Forms, SQL Server, ADO.NET

GitHub: <https://github.com/AnuradhaRashmika/EmployeeManagementSystem>

VOLUNTEERING & LEADERSHIP

AWS Cloud Club - University of Kelaniya	
• Committee Member	Oct 2024 - Jan 2026
UOK ISACA Student Group	
• Delegate Team Lead	Aug 2025 - oct 2025
• Event Organizing Committee Member	Jul 2024 - Aug 2024
Leo Club - University of Kelaniya	
• PR & Marketing Coordinator	Aug 2024 - May 2025
IEEE CS Chapter UOK	
• Public Visibility Team Member	May 2024 - Nov 2024
